

Download and Create your BSC (Binance Smart Chain)

Step 1

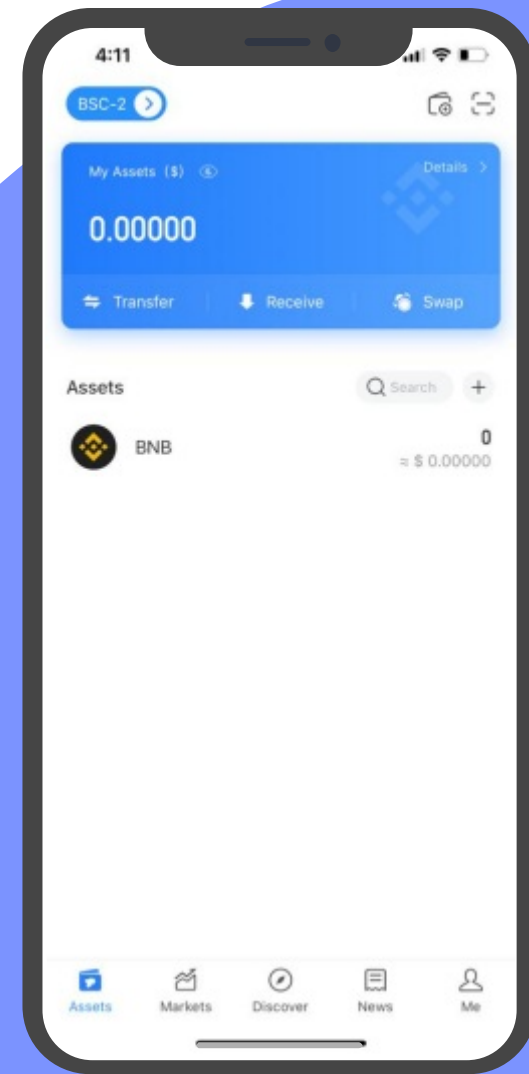

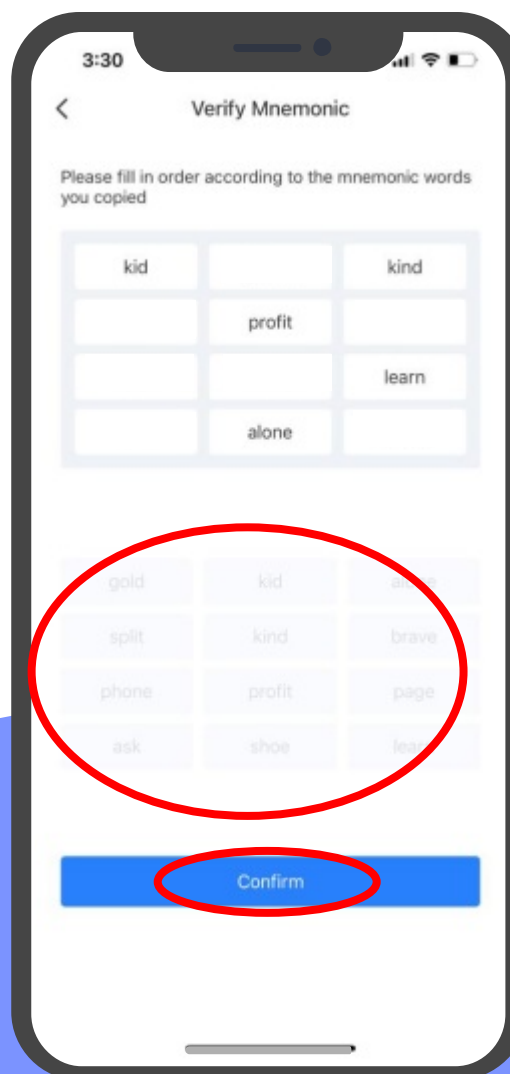

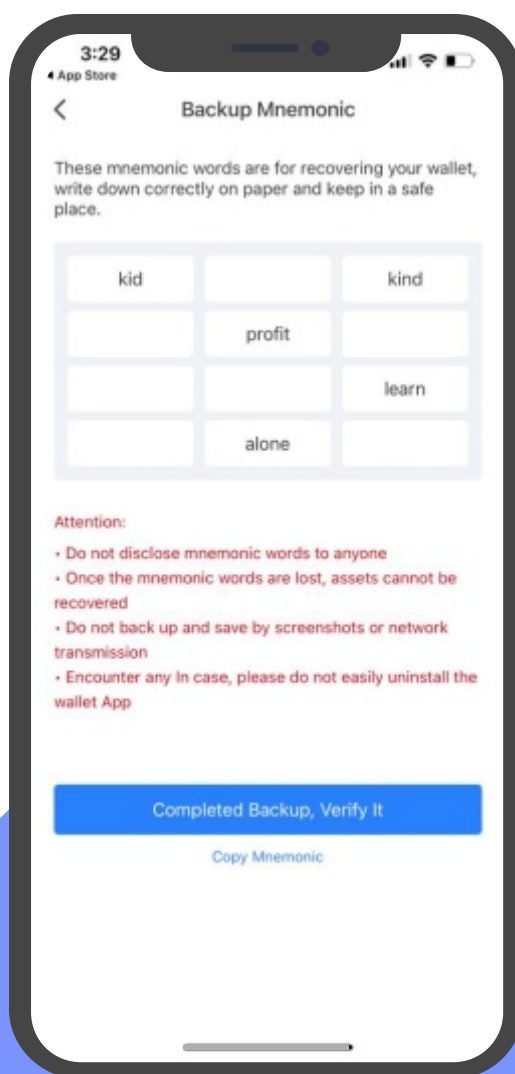

Download **Token Pocket** from App Store/ Google Play Store/ Huawei App Gallery.

Step 2

Open Token Pocket app, select **No Wallet** to create a new wallet.
Select **Binance Smart Chain** and press **Create**.

Step 3

Set your own password for the wallet and press **Create wallet**.

Step 4

Take a photo of your own BackUp Mnemonic or Copy to your note, and press **Completed BackUp, Verify It**.

Step 5

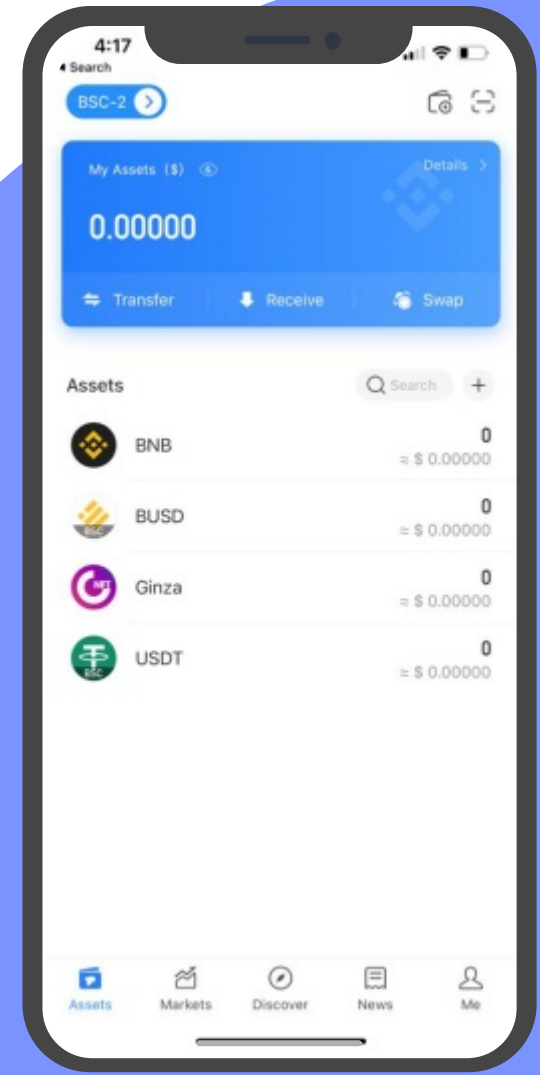

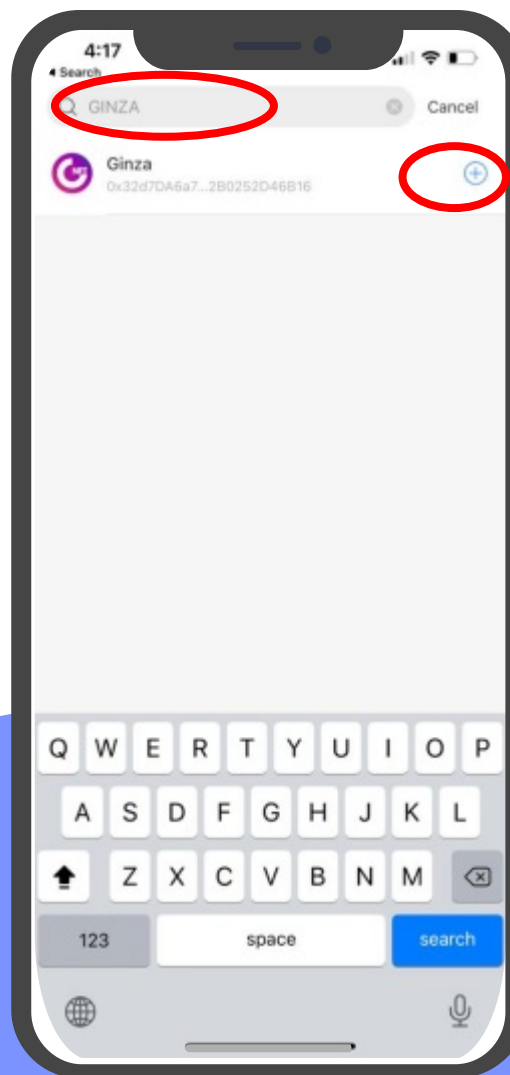

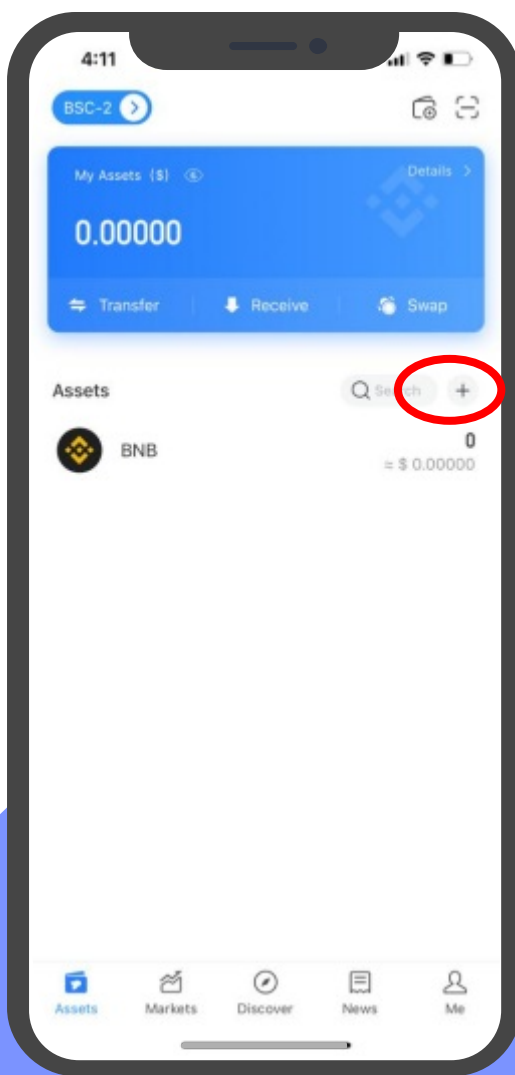

Insert the Phrase according to the Seed Phrase that you took on previous step, and press **Confirm**.

Step 6

Your Binance Smart Chain has been successfully added.

The background is a solid blue color. A white, wavy line starts from the left edge, curves upwards, and then continues as a smooth, upward-sloping curve towards the top right corner of the image.

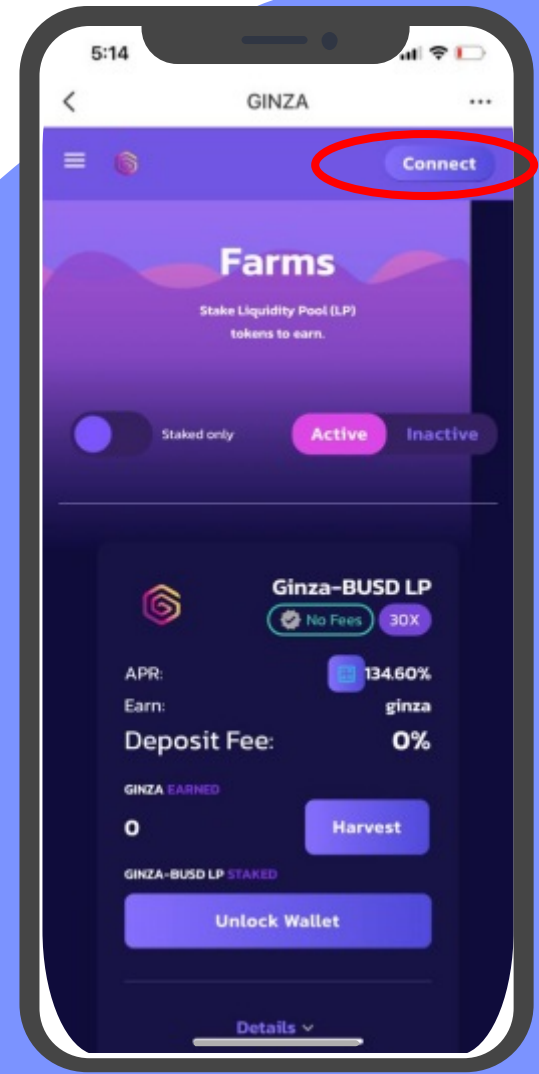

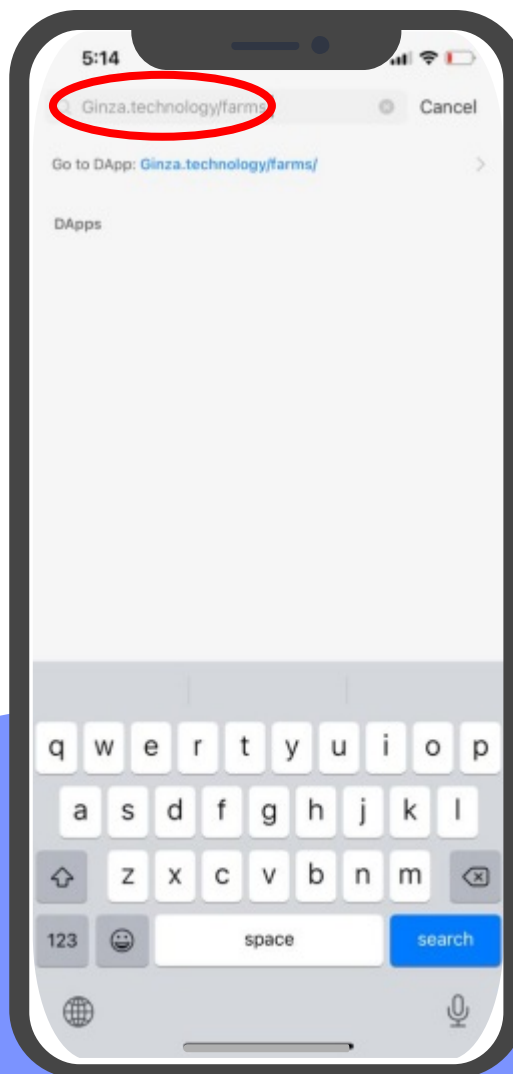

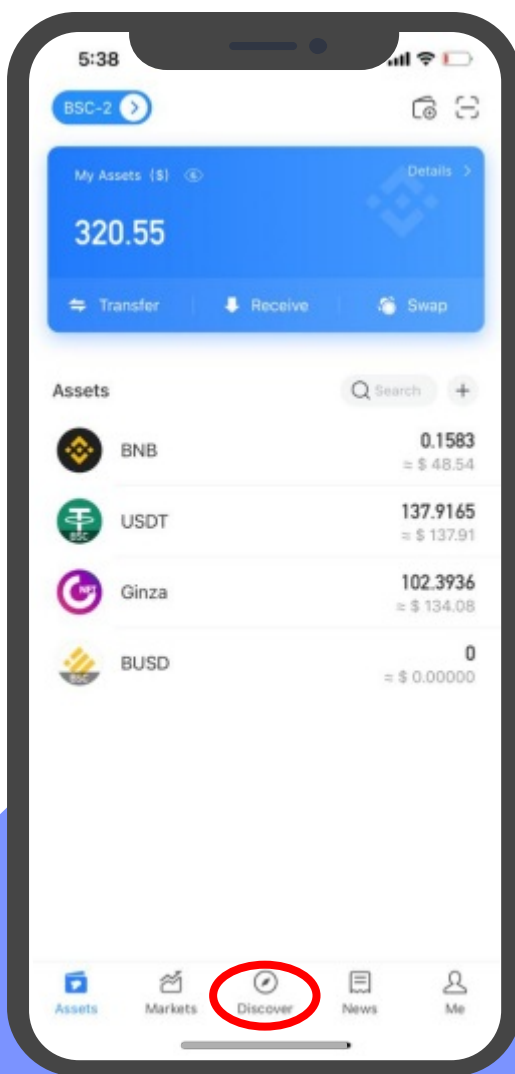

Add TOKEN into your BSC Wallet

- Step 1**
Select **+** button under the Assets menu.
- Step 2**
Insert GINZA/ USDT/ BUSD or whichever token that you want to add and search. Press the **+** button on the token that you wish to add.
- Step 3**
After returning to the homepage, you will see the TOKEN you have added.

The background is a solid blue color. A white, wavy, abstract line starts from the bottom left, curves upwards and to the right, and then curves back down towards the right edge, creating a large, irregular white shape in the upper right portion of the image.

Swap Token, Add LP, Enable Farm & Stacking

Step 1

Press **Discover** from the menu which located at the bottom of the page.

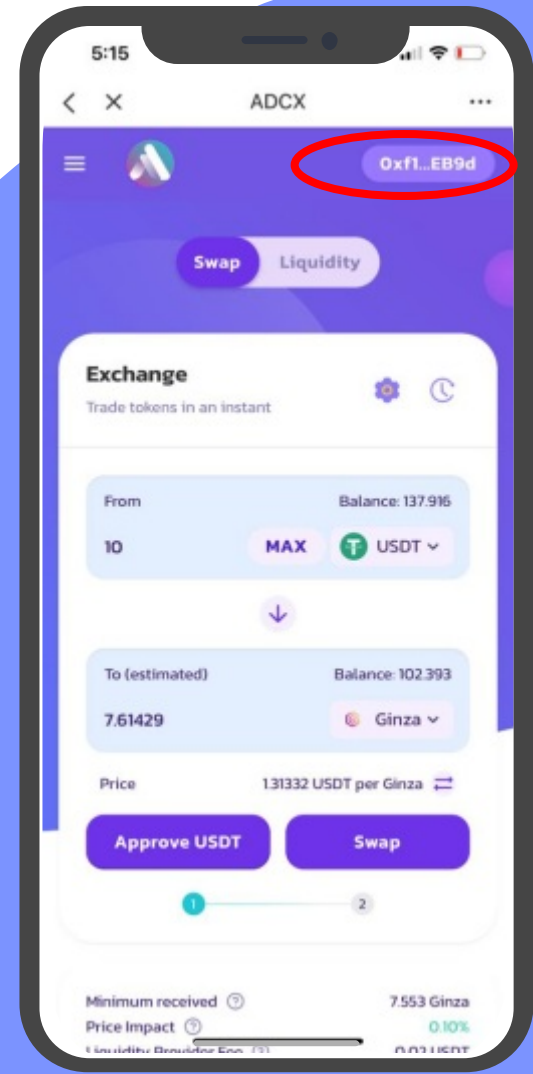

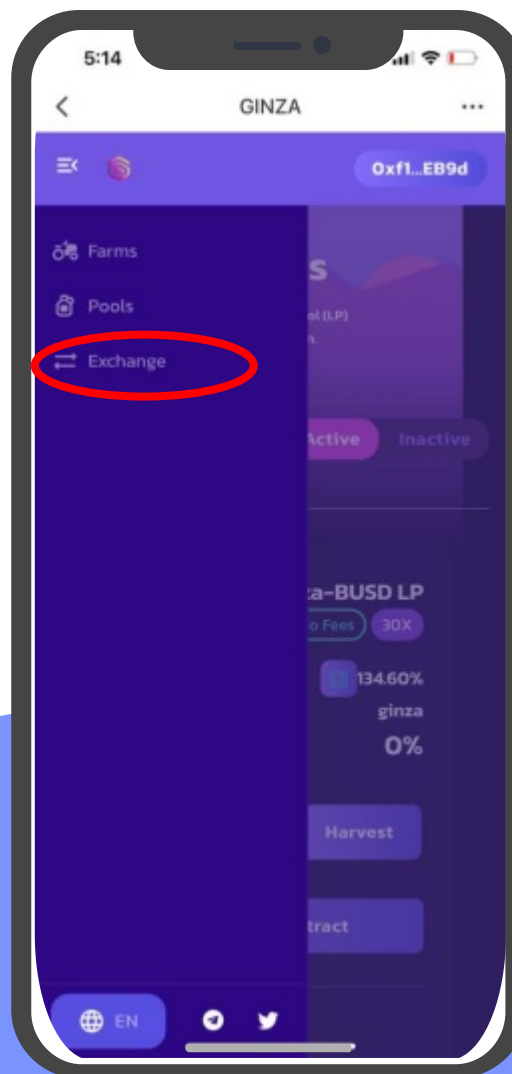

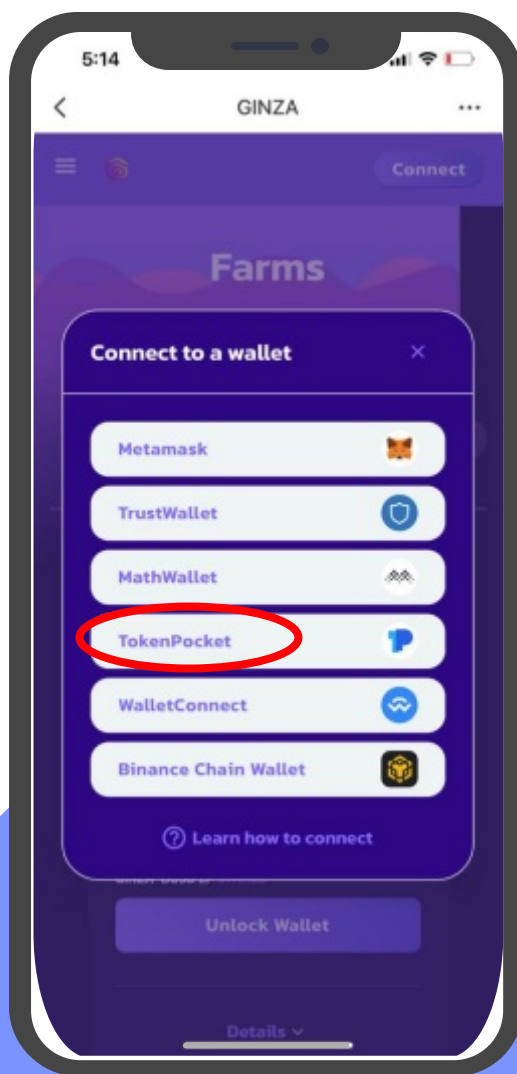

** Please do ensure your wallet have enough of BNB (At least 0.1) for Gas Fees deduction on every transactions.*

Step 2

Insert Ginza LP Mining website (<https://ginza.technology/farms/>) into the search column which located at the top of the page.

Step 3

Press **Connect** button from the top right corner of the page.

Step 4

Select **Token Pocket**.

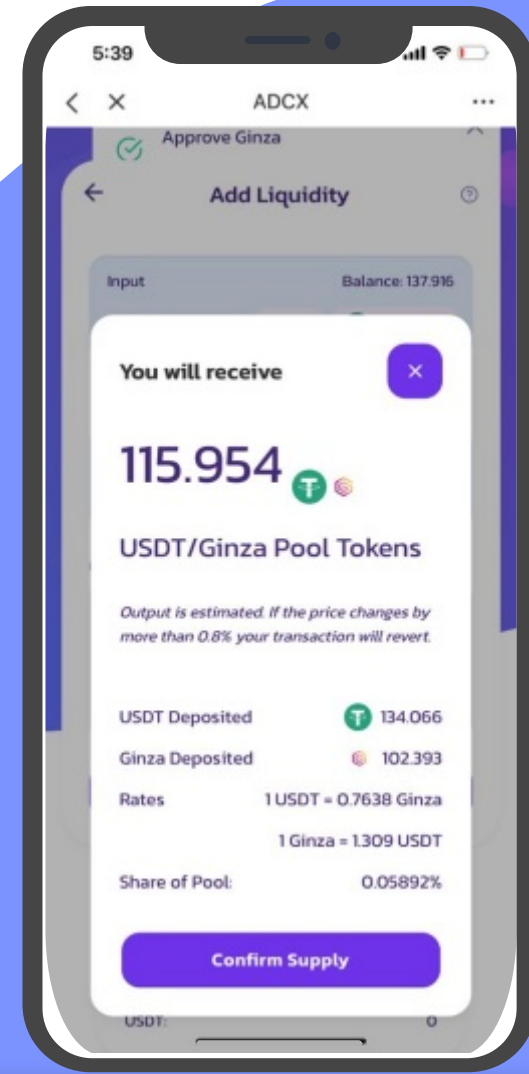

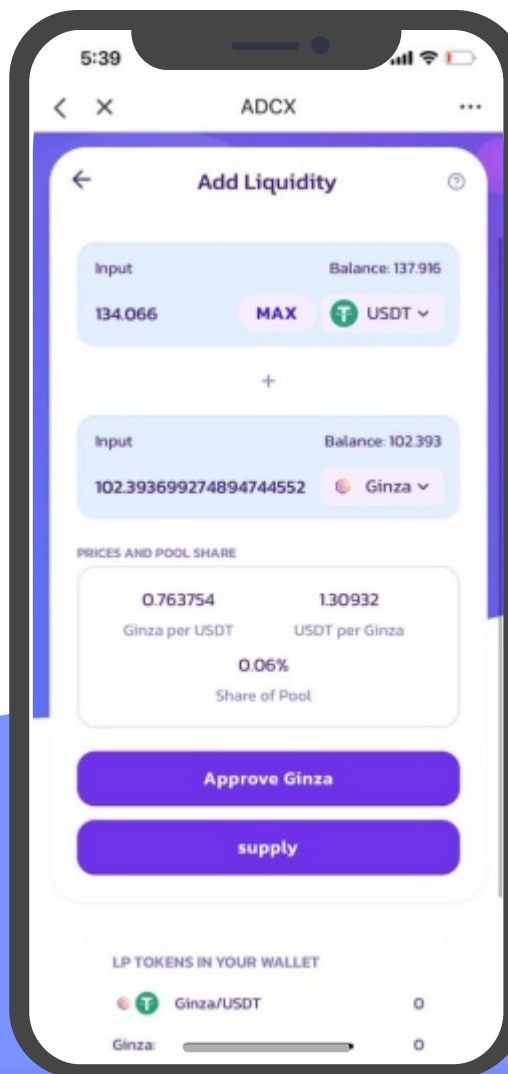

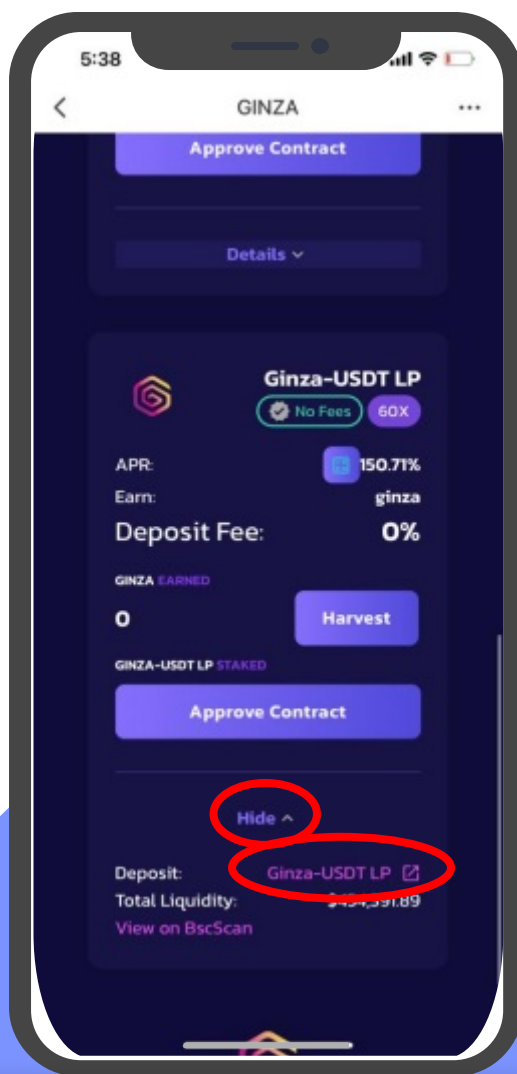

Step 5

After connected, press **Exchange** from menu button.

Step 6

Exchange Ginza/ USDT/ BUSD and etc with your own preferred Currency (BNB/ USDT/ BUSD and etc).

*Please make sure your wallet address is showing out from the top right corner of the page, if it is showing Connect. Press the connect button by choosing Token Pocket to reconnect again.

Step 7

After exchange process completed, press **details** under your preferred LP selection. (This tutorial is using Ginza-USDT LP as example). Press **GINZA-USDT LP** which is next to Deposit

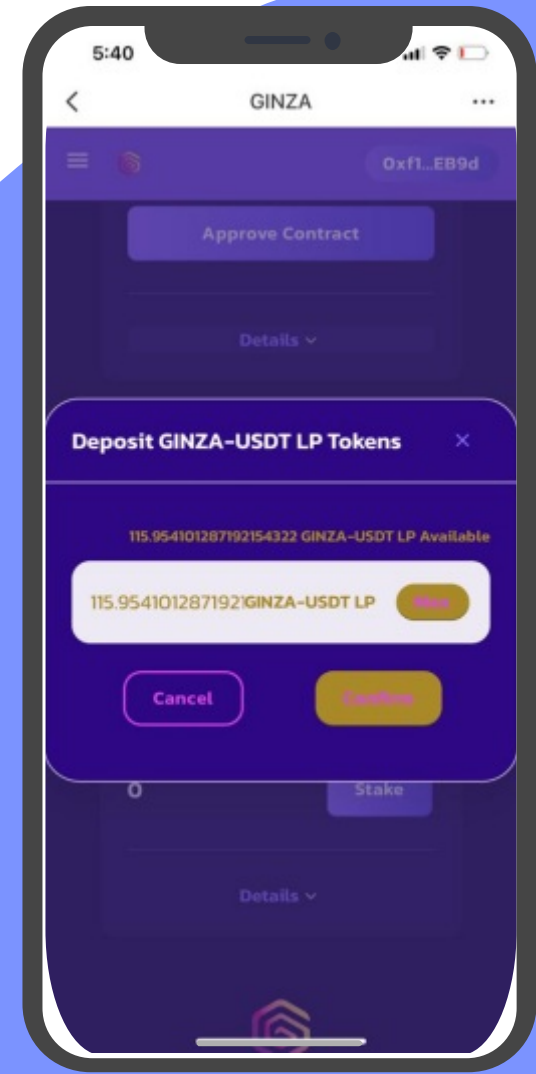

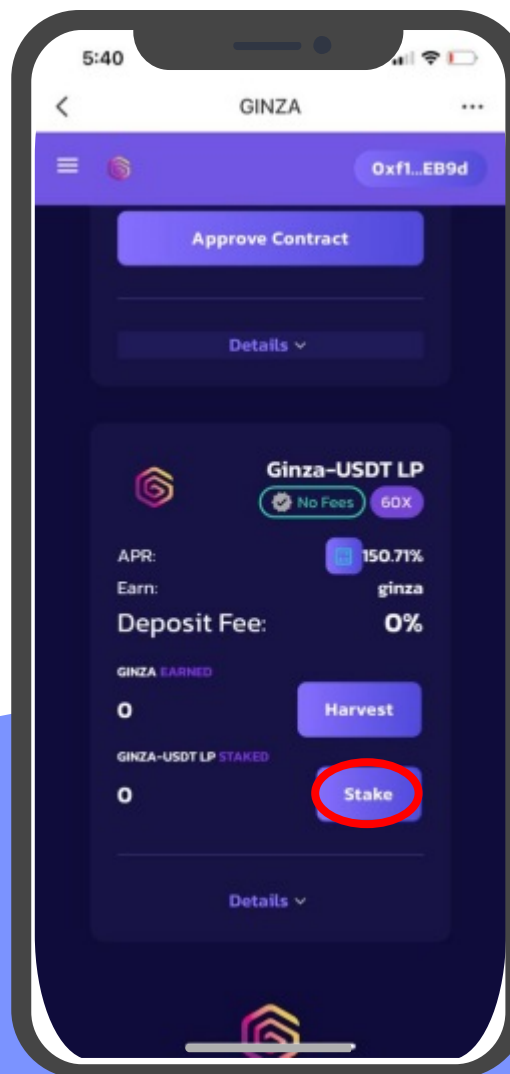

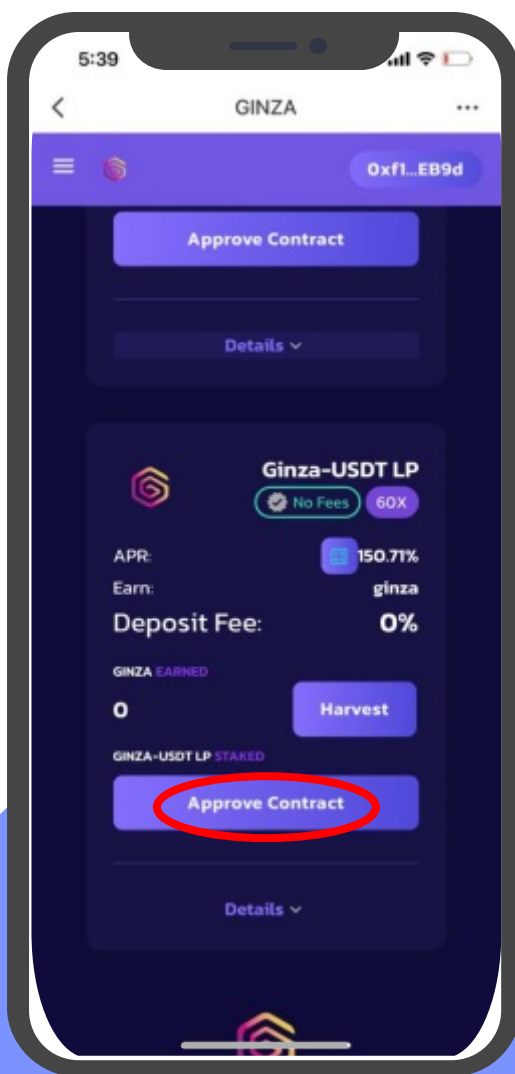

Step 8

Select **currency** which you would like to pair for LP Mining. Insert the amount and select **Approve**. Lastly, select **Supply**.

*You will just need to insert one of the amount under (USDT) or (GINZA), system will auto calculate the equal value on the other token.

Step 9

After confirm your paired Token quantity, press **Confirm Supply**.

Step 10

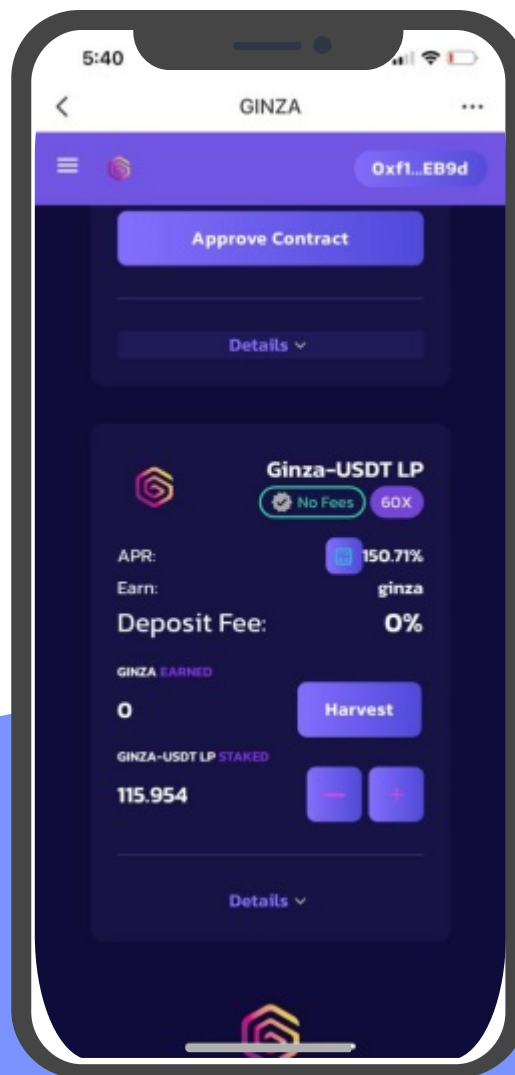

After complete to add Liquidity, back to Ginza LP Mining Page and find your preferred LP, and press **Approve Contract**.

Step 11

Once Contract has been approved, the button will auto change to Stack. Press **Stack** button to continue.

Step 12

Insert the amount that you want to put into LP Mining. Press **Confirm**.

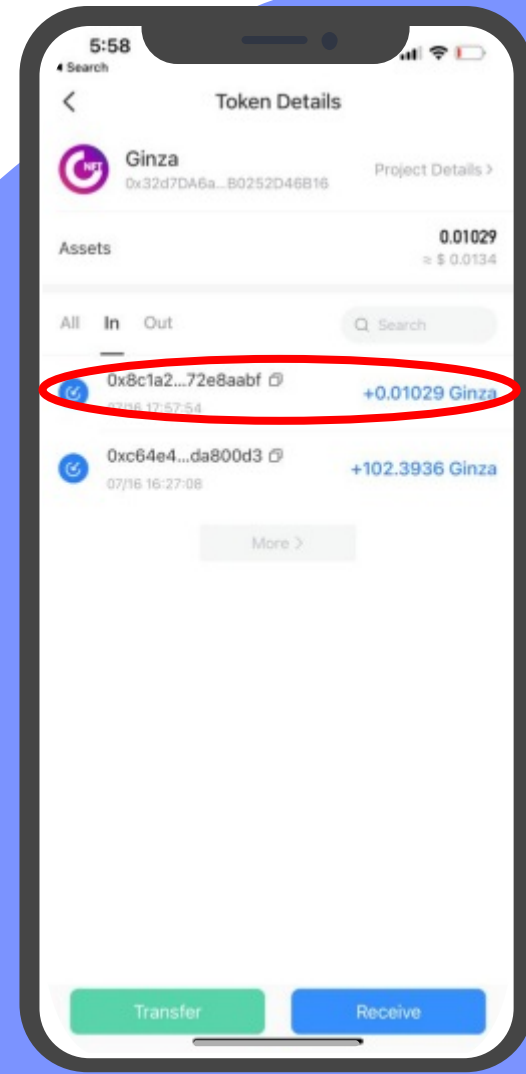

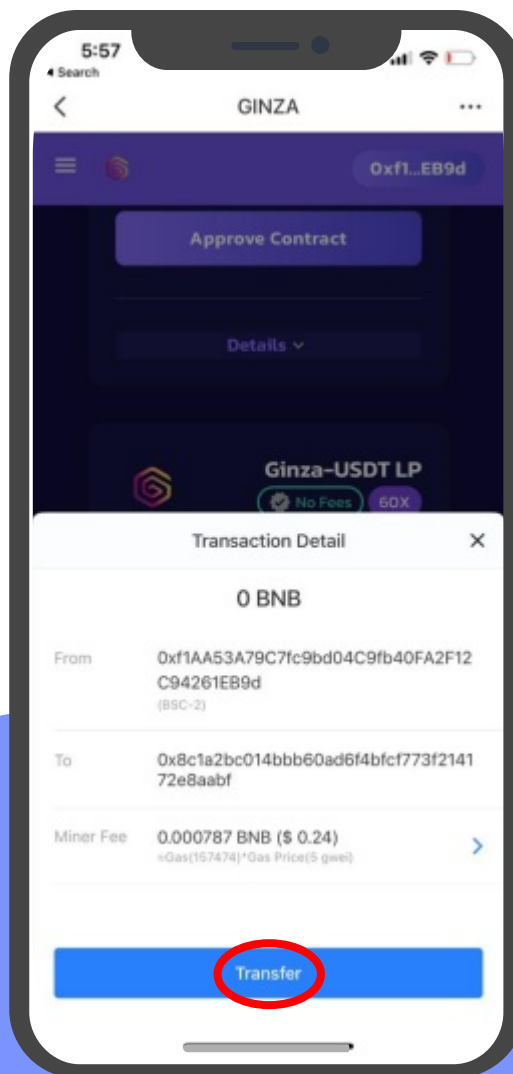

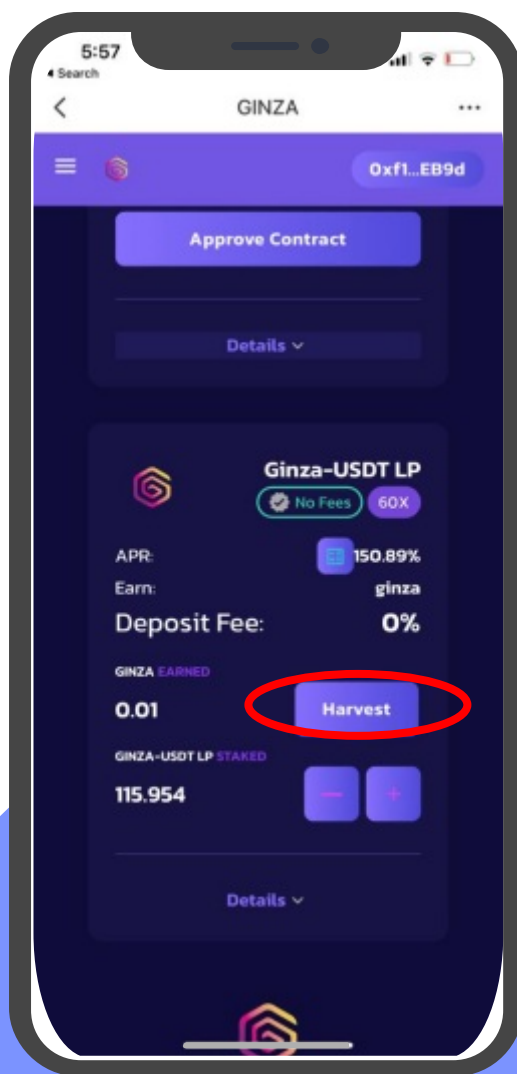

Step 13

Congratulatinos, you has been successful join into the LP Mining.

The background is a solid blue color. A white, wavy line starts from the left edge, curves upwards, and then levels out towards the right, creating a stylized horizon or wave effect.

Harvest your Ginza from LP Mining

Step 1

Press **Harvest** button.

Step 2

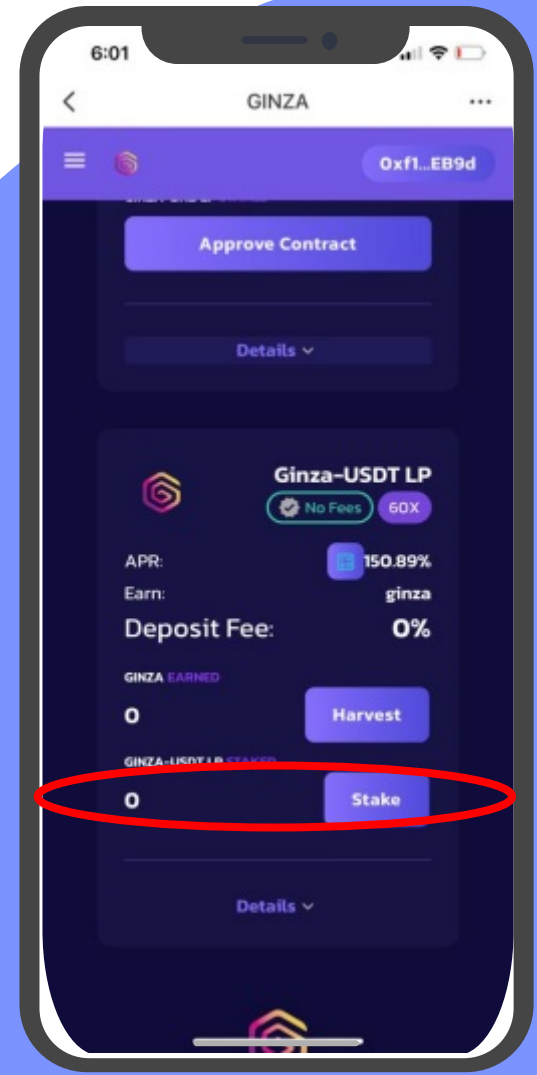

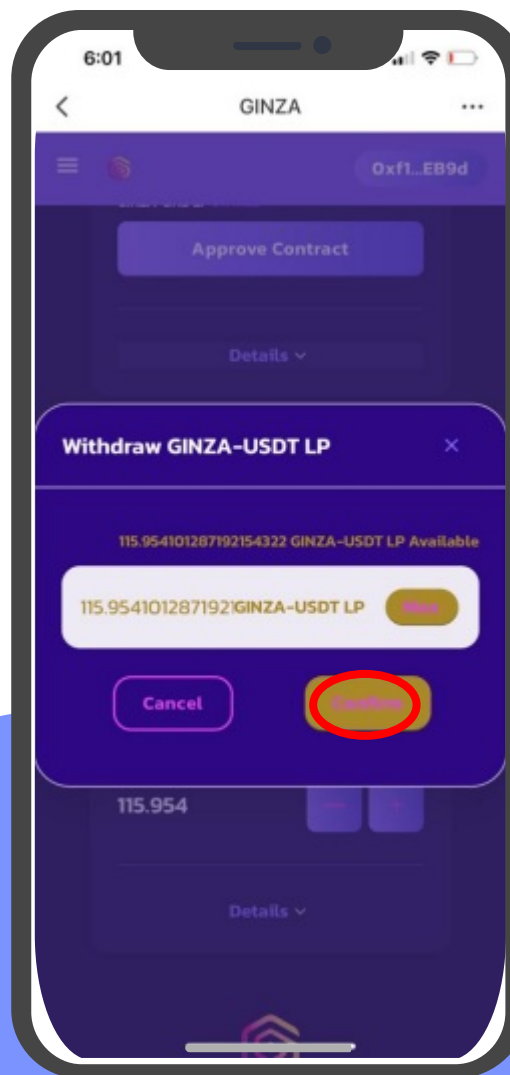

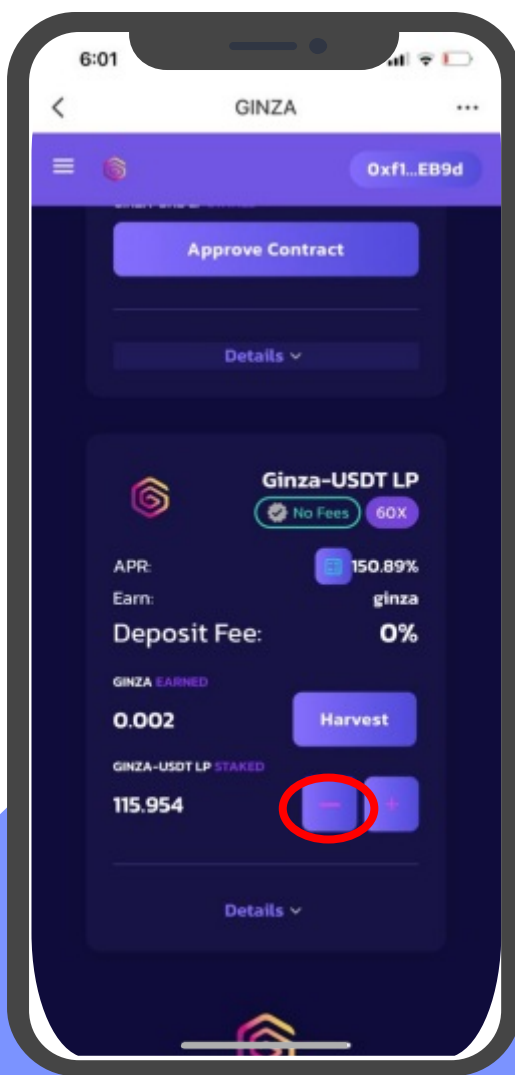

System will pop out a confirmation for you to proceed the Harvest process.

Step 3

After completed, back to your Token Pocket BSC Wallet Page. You will see your Ginza has been increased from Harvest!

Remove LP

Step 1

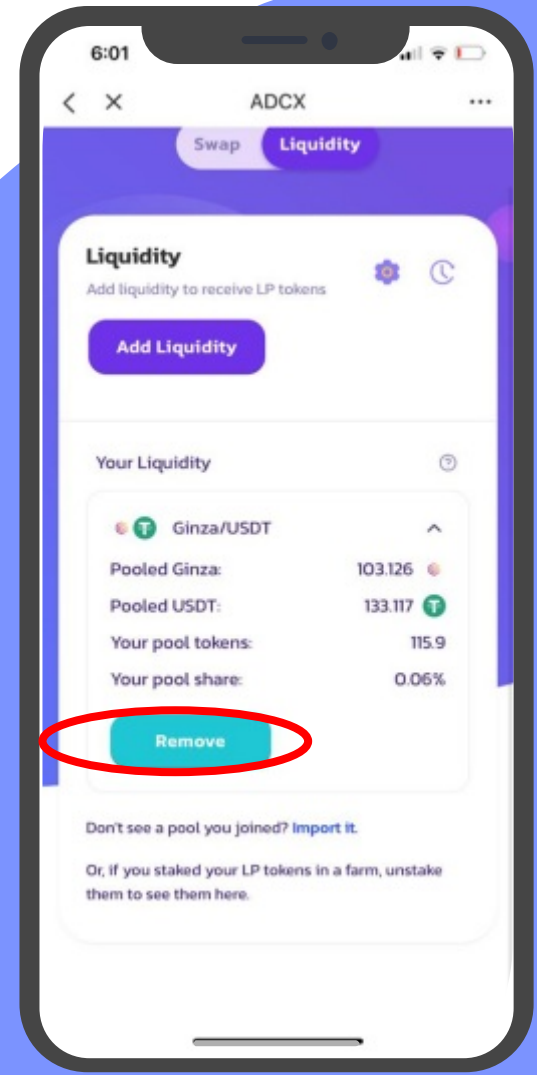

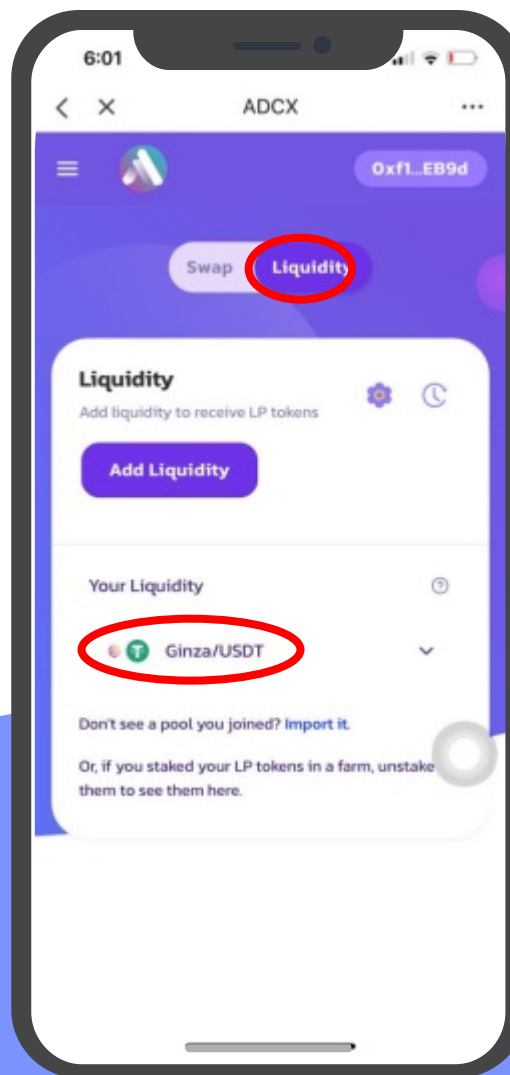

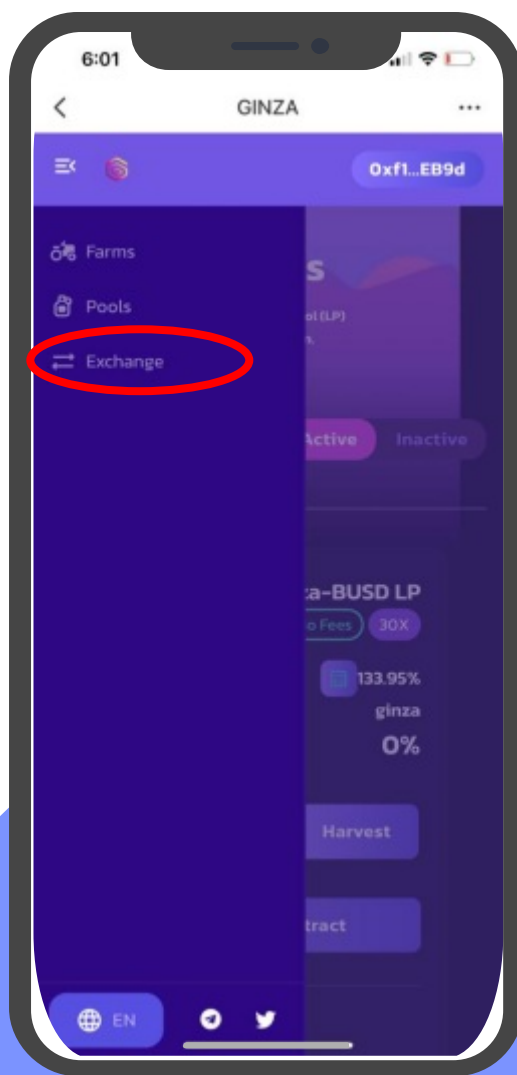

Press **Unstack** button under your stacked LP.

Step 2

Insert your figure or press **Max** amount that you wish to unstack. Press **confirm**.

Step 3

Your stacked amount will be 0 after confirm.

Step 4

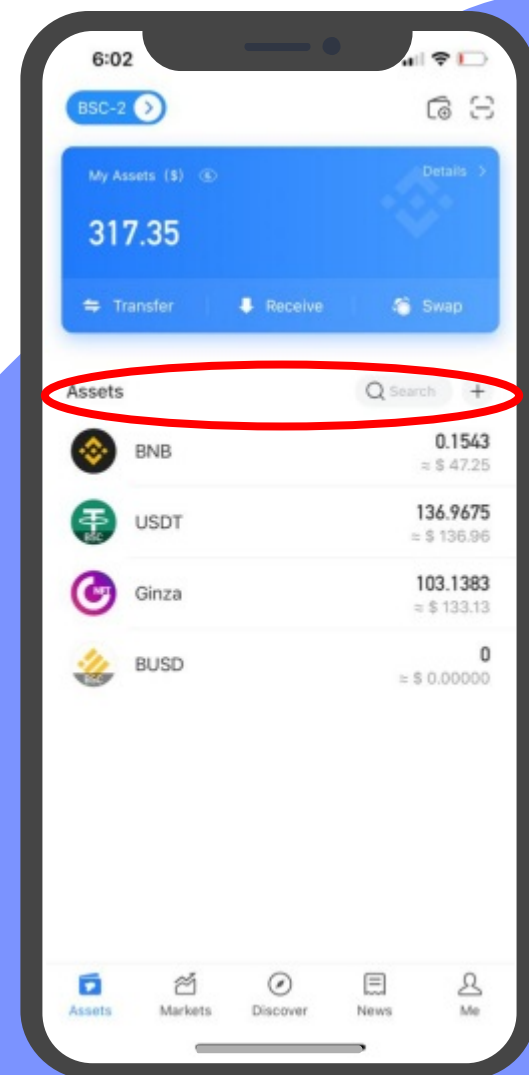

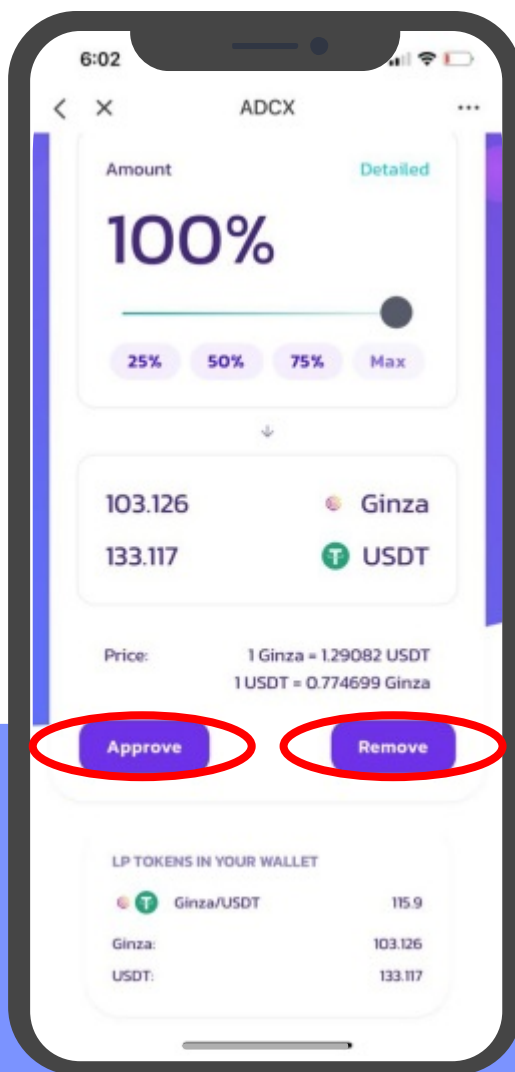

Press **Exchange**.

Step 5

Press **Liquidity**, system will auto pop out your available paired currency. Press the **currency that you wish to unpair**.

Step 6

Press **remove**.

Step 7

Enter the amount that you want to unpair, press **Approved**. Lastly, press **Remove**.

Step 8

Back to your Token Pocket BSC Wallet Page. Your unpaired currency will be returned into your BSC wallet.
